Demand & Fulfillment Operations

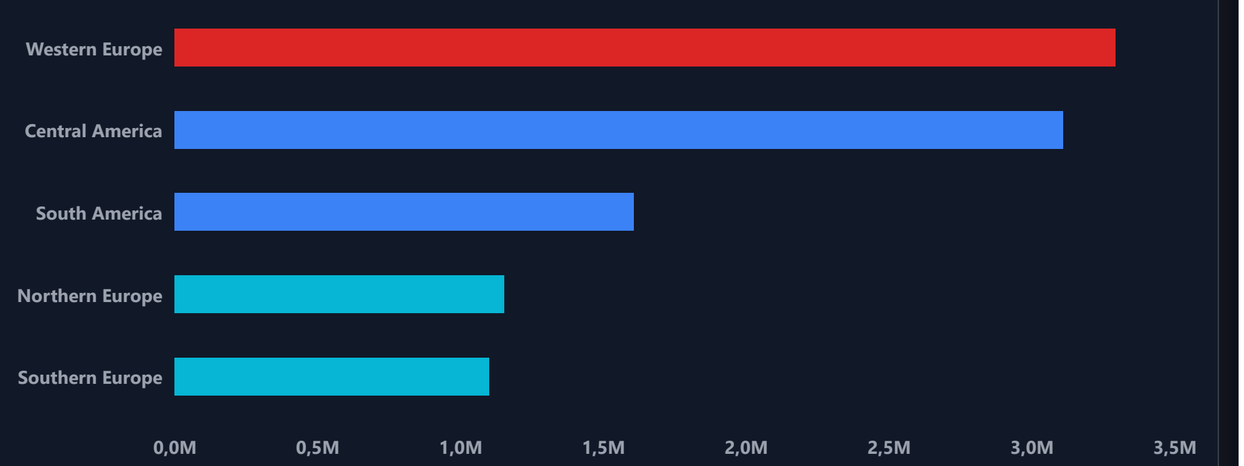

Operational Control Tower | Focus on OTIF Recovery & At-Risk Revenue

Total Demand Units	Avg Delivery Delay Days	OTIF Delivery Rate %	Total Net Sales
384K	1	43	37M

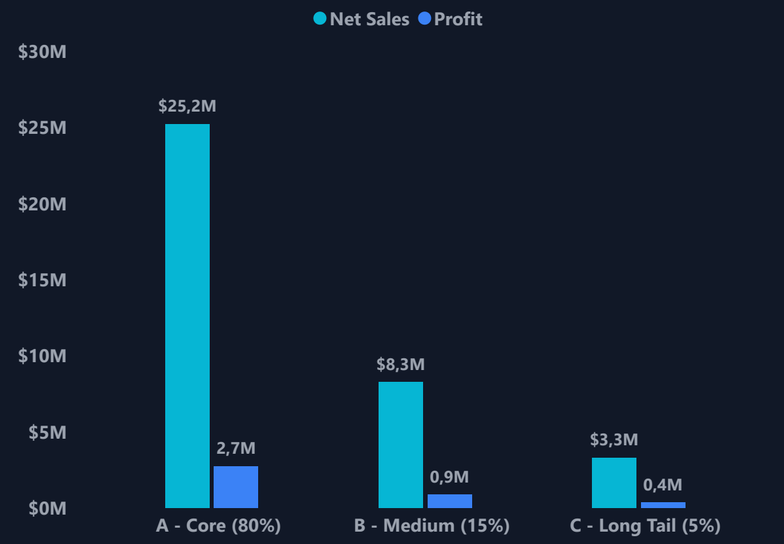

Monthly Demand Trend (Units)

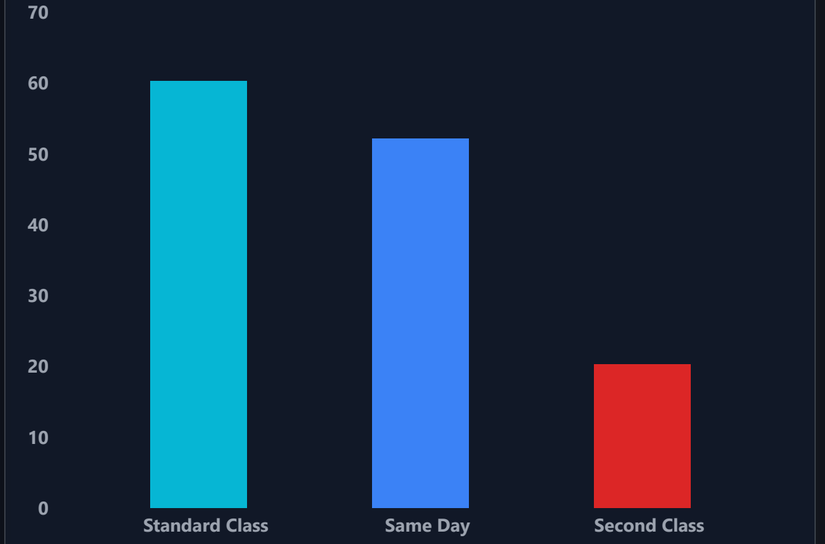

Top Regions by At-Risk Sales Value (Financial Exposure)

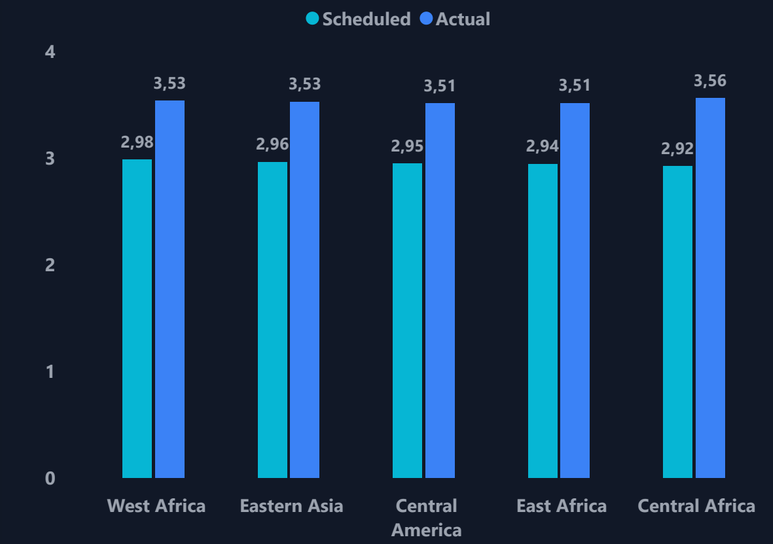

Revenue & Profitability by ABC Segment

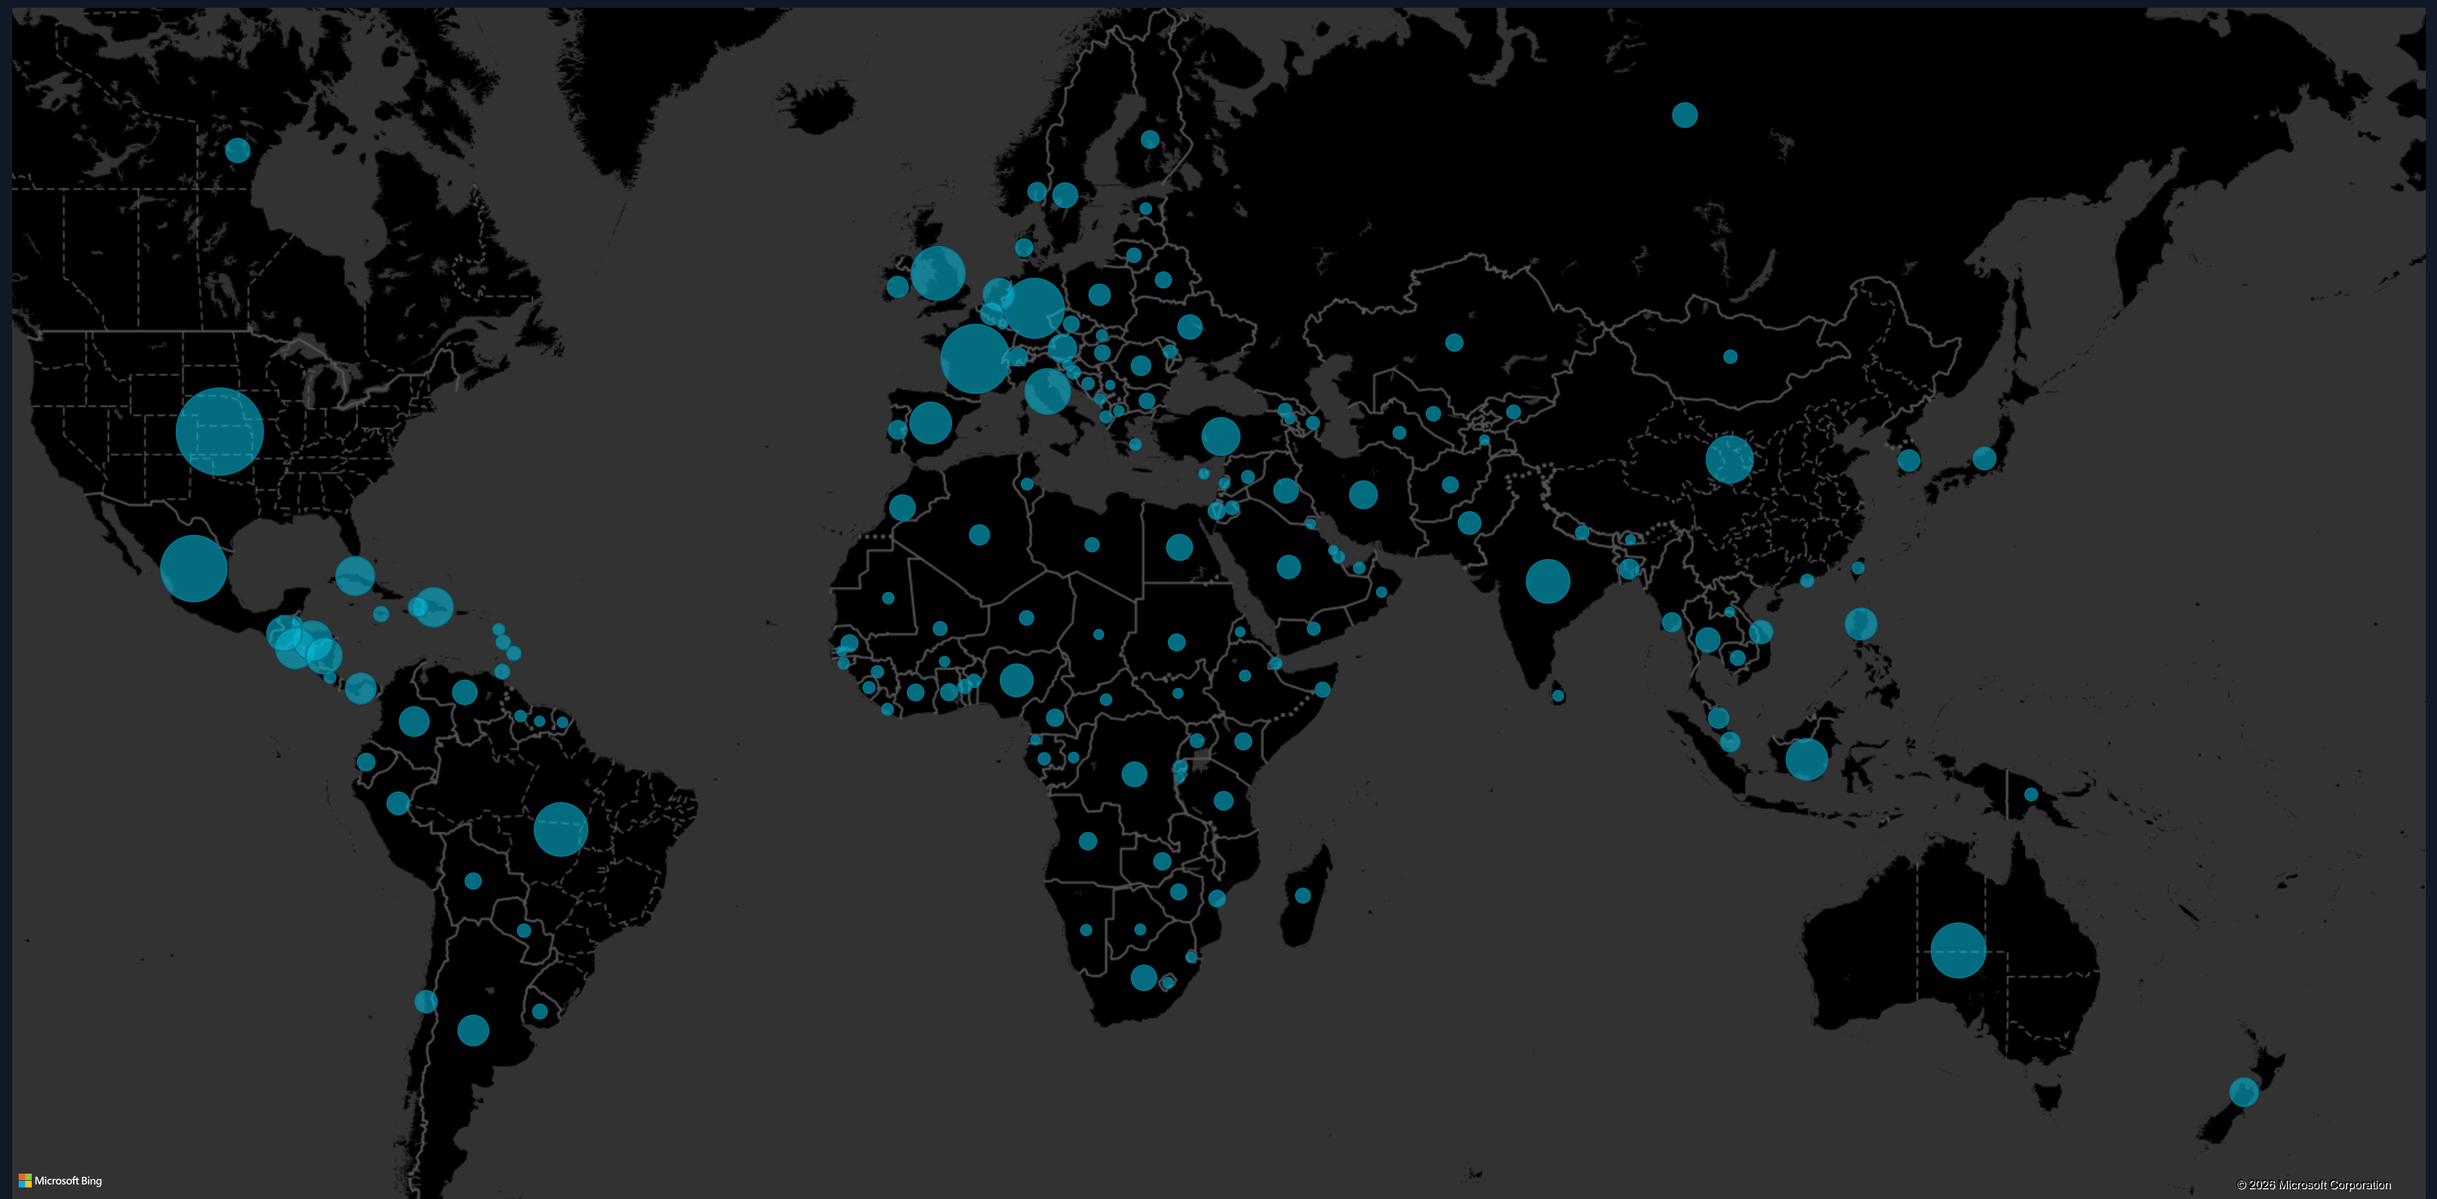

OTIF Delivery Rate % by Shipping Mode

Lead Time Variance: Scheduled vs. Actual (Days)

Global Supply Chain Network: Net Sales Value vs. Logistics Risk by Region

This map illustrates the geographical distribution of net sales (represented by bubble size) weighed against supply chain performance. It enables the identification of strategic markets and areas of heightened operational risk where delivery delays could directly threaten customer satisfaction and tie up working capital.
